Request to testify at the public hearing on immigrant driver's licenses in the state of Ct.

For me it is an honor to be here with you trying to put the proposal on the point license.

This proposal is beneficial to both.

For you because they know where we live, we are paying our insurance, and we are contributing to our community.

By giving us our license you have access to our criminal record.

If we do not support would be taking us to break the rules or laws of the nation.

I believe this proposal would be very important because it would be safer, the community, the streets, and me.

Also this would help us to get out without fear and with the assurance that we would remove police cars having no license.

If they pass this proposed license would not serve as legal identification of this country.

It would be a step towards achieving the dream of every person.

Personally, I can freely open the way for my business because I need my license to do so.

Thank you very much
